

FOODSERVICE

SAFETY CUTTING SOLUTIONS

We have hand-selected our most popular safety cutters for use in your food prep and processing operations.

At PHC & Klever, providing superior quality, high-performance safety cutting solutions to improve workplace safety and prevent costly merchandise damage is at the core of everything we do.

Consider your safety requirements, cutting application, and environment when selecting a safety cutter.

NSF NSF Certified options available

CONCEALED BLADE

Recessed blade offers maximum user protection and reduces the risk of damaging goods.

KS Series™

NSF

100% Stainless steel handle, inner carriage and blade featuring tool-free blade changing.

Metal-Detectable Klever Cutter™

NSF **MD**

Features a stainless steel blade and made with a highly durable metal-detectable plastic.

The Original Klever Cutter™

NSF

Compact safety cutter with stainless steel blade and our proprietary plastic for enhanced durability.

Metal-Detectable Klever Excel Plus™

MD

Designed with an extended-length handle and wider opening to offer cutting capabilities from tape to single-wall corrugate.

Kleen® Kutter™

Antimicrobial

NSF

Features a stainless steel blade and made from an antimicrobial material that inhibits the growth of bacteria on the product.

Metal-Detectable Disposable Film Cutter

MD

The metal-detectable DFC is the ideal choice for cutting cryovac, plastic bags, shrink wrap, paper bags and strapping.

NSF Disposable Film Cutter

NSF

This easily-sanitizable safety cutting solution features a stainless steel blade.

RAZE™ Bag Cutter

NSF

Features an enclosed stainless steel blade which helps to avoid loose blades in food service locations.

Kleen® XChange™

Antimicrobial

Reusable handle with replaceable multi-purpose head (35) easily cuts tape to double-wall corrugate while offering a sustainable solution for high-volume environments.

GUARDED BLADE

Advanced safety technologies and multi-use features paired with robust designs provide long-lasting, versatile safety cutters for rigorous environments.

Restaurant Safety Cutter

NSF

AUTO-LOCKING SAFETY HOOD

The hood automatically closes to cover the blade at the end of each cut.

S5

USED IN MOST U.S. GROCERS

Delivers safe, quick and comfortable continuous cutting, minimizing hand fatigue. Features innovative 3-in-1 design.

Proudly manufacturing in the U.S.A. since 1950

FOODSERVICE SOLUTIONS PRODUCT INFORMATION & ORDER GUIDE

CONCEALED BLADE

KS SERIES™

An all stainless steel handle, inner carriage, and blade safety cutter that features a wider opening and our tool-free integrated blade-locking system.

KS SERIES REPLACEMENT BLADES™

Stainless steel, dual-usage, curved replacement blades.

THE ORIGINAL KLEVER KUTTER™

Small, convenient, durable, and economical solution for food processing environments – features a stainless steel blade.

KLEEN™ KUTTER™

Antimicrobial material inhibits the growth of bacteria on the product – features a stainless steel blade – complementing your existing hygiene protocols.

METAL-DETECTABLE* KLEVER KUTTER™

Small, convenient, durable, and economical solution for food processing environments – features a stainless steel blade and metal-detectable* plastic.

METAL-DETECTABLE* KLEVER EXCEL PLUS™

The extended length handle, made from a metal-detectable* plastic, combines with a wider opening to offer cutting capabilities from tape to boxes.

* Recommend testing with your test equipment

Proudly manufacturing in the U.S.A. since 1950

METAL-DETECTABLE* DISPOSABLE FILM CUTTER

Created with metal-detectable* plastic for detection in food manufacturing facilities.

NSF DISPOSABLE FILM CUTTER

Easy to clean and sanitize, these safety cutters feature a stainless steel blade and are an ideal choice for cutting cryovac, plastic bags, shrink wrap, and paper bags.

- DFC-364NSFR Red
- DFC-364NSFW White
- DFC-364NSFY Yellow

RAZE™ BAG CUTTER

Ideal choice for smoothly slicing through food pouches, plastic bags, shrink wrap and more!

REUSABLE-HANDLE, CONCEALED

KLEVER XCHANGE™

Ergonomic 'soft touch' handle reduces hand fatigue. Antimicrobial material inhibits the growth of bacteria on the product – complementing existing hygiene protocols.

KLEVER XCHANGE™ REPLACEMENT HEADS

Interchangeable, quick-change, snap-in heads compatible with all Klever XChange™ handles.

- Narrow: Dual-Opening Head (20)
KCJ-XH-20X ANTIMICROBIAL
- Wide: Single-Opening Head (30)
KCJ-XH-30X ANTIMICROBIAL
- Wide: Multipurpose Head (35)
KCJ-XH-35X ANTIMICROBIAL

KLEVER HOLSTER

Compatible with all Klever safety cutters. Easily/securely velcros to user's belt and includes a pocket for replacement heads.

RESTAURANT SAFETY CUTTER

Features a unique self-activating safety hood designed to keep the user safe.

- UKH-443 Plastic Swivel Holster
- CL-36 Clip-On Coil Lanyard

S5 GUARDED SAFETY CUTTER

Protective metal guard helps protect user while pop-out film cutter safely and easily cuts shrink wrap, plastic straps, and more.

- S5R Right-handed
- S5L Left-handed
- SP-017 Safety Point Blades
- UKH-423 Plastic Swivel Holster
- CL-36 Clip-On Coil Lanyard

CREATE YOUR OWN BLADE-CHANGING STATION

Increase productivity and improve safety by offering a solution to safely dispose of and change blades in one location.

Blade Banks

- BH-00206 With Wall-Mount
- BB-00205 With Two Zip Ties

Blade Dispenser

- SPD-017 Compatible with S5
